Chorus

Sounds of Trees

Crashing Down

Animal's Lives

Ending Now

This is a cry to us from the earth

This is a cry to stop and rebirth

The water is soiled, fish are killed

What is wrong

With our ways?

We are destructive, evil and cruel

We need to stop our dictative rule

Even the smallest trash will hurt

Everyone must stay alert

We must unite, today, right now

We will work to change this place

We will work to change this race

This is a planet sacred to us

Thanks for the endless, patience and trust
